

Pritesh Bhuravane

Software Developer | Backend Development | DevOps

Ratnagiri, Maharashtra | 9405059038 | bhuravanepritesh@gmail.com | LinkedIn: [linkedin.com/in/pritesh-bhuravane](https://www.linkedin.com/in/pritesh-bhuravane) | Portfolio: portfolio-gamma-opal-5be8cvvw26.vercel.app

PROFESSIONAL SUMMARY

Software Developer with hands-on experience in backend development, DevOps, Linux server administration, REST APIs, database management, Git/GitLab, and application deployment. MCA graduate from Finolex Academy of Management & Technology with an 8.86 CGPA and 3rd Rank in the MCA program (2026). Experienced with PHP, Laravel, React.js, React Native, Flutter, Node.js, Express.js, MongoDB, MySQL, Firebase, Nginx, and Linux. Focused on building scalable, maintainable web and mobile applications and reliable deployment environments.

TECHNICAL SKILLS

Languages: PHP, JavaScript, Python, HTML5, CSS3

Backend & APIs: Laravel, Node.js, Express.js, REST APIs

Frontend & Mobile: React.js, React Native, Flutter

Databases: MySQL, MongoDB, Firebase

DevOps & Infrastructure: Linux, Ubuntu, Nginx, Git, GitLab, AWS/EC2, Application Deployment

Other: Authentication, API Integration, Database Optimization, Responsive UI

PROFESSIONAL EXPERIENCE

Pleximus Inc — DevOps Executive

Ratnagiri, Maharashtra | June 2026 – Present

- Support application deployment and server-side operations across Linux-based environments.
- Work with Linux/Ubuntu, Nginx, Git/GitLab, databases, web applications, and production troubleshooting.
- Assist with infrastructure and application maintenance, service management, configuration changes, and deployment activities.
- Collaborate with development and operations teams to troubleshoot application and server issues.

Pleximus Inc — Backend Developer Intern

Ratnagiri, Maharashtra | December 2025 – June 2026

- Gained hands-on experience in backend development, REST APIs, database management, Git/GitLab, Linux server administration, and application deployment.
- Worked with PHP/Laravel and backend application workflows while contributing to real-world software projects.
- Applied debugging, database, API, and deployment practices in a professional development environment.

PROJECTS

Code Editor – React-Based Code Playground

Tech: React.js, JavaScript, HTML5, CSS3, Prettier

- Built a browser-based code editor with HTML/CSS/JavaScript preview, formatting, ZIP export, shareable links, starter templates, and dark mode.

Live Demo: <https://code-editor-9wsg.vercel.app/>

GitHub Explorer – Developer Profile Viewer

Tech: React.js, JavaScript, GitHub API

- Developed a responsive application to search GitHub profiles and display repositories, followers, activity statistics, and API rate-limit information.

Live Demo: <https://git-hub-explorer-zeta.vercel.app/>

Pet Adoption App

Tech: React Native, Firebase

- Developed a mobile application for pet adoption with user authentication, direct messaging, and administrative management features.

NewsPortal – React-Based News Platform

Tech: React.js, REST APIs, JavaScript

- Created a dynamic news portal that fetches and displays real-time news updates through REST APIs.

Live Demo: <https://news-portal-rho-ecru.vercel.app/>

ShopMatcher

Tech: Flutter, Mobile Development

- Built a cross-platform shopping application that brings major Indian e-commerce platforms into a unified browsing and buying experience.

E-Learning Website

Tech: Python, Django

- Developed an online education platform with dynamic student dashboards, Razorpay integration, and RESTful API integration for study materials, records, and payments.

Live Demo: <https://e-learning-5uto.onrender.com/>

Skin Disease Detection System

Tech: Python, YOLOv8, EfficientNetB0, Kaggle

- Built an AI-based skin disease detection system using YOLOv8 for lesion detection and EfficientNetB0 for classification, achieving higher accuracy than baseline CNN models.

Spam Detection using Machine Learning

Tech: Python, NLP, Scikit-learn

- Built an ML model to detect spam messages; preprocessed text data and trained Naive Bayes and Logistic Regression models, achieving 95% accuracy.

EDUCATION

Finolex Academy of Management & Technology, Ratnagiri

Master of Computer Applications (MCA) | July 2024 – June 2026 | 8.86 CGPA | 3rd Rank

Nya. Tatyasaheb Athalye Arts, Ved. S.R. Sapre Commerce and Vid. Dadasaheb Pitre Science College, Devrukh

Bachelor's Degree, Computer Science | July 2021 – June 2024 | 9.92 CGPA

CERTIFICATIONS

- React Essential Training — LinkedIn Learning (Jul 2025)
- React Hooks — LinkedIn Learning (Jul 2025)
- React: Creating and Hosting a Full-Stack Site — LinkedIn Learning (Jul 2025)
- React.js: Building an Interface — LinkedIn Learning (Jul 2025)
- React Native — Onwingspan (Jun 2025)
- Git & GitHub Bootcamp — LetsUpgrade (Jun 2025), Credential ID: LUEGGJUN12564
- Beginning Python — Infosys Springboard (Jun 2025)
- Creating GitHub Portfolios — LinkedIn Learning (Jun 2025)
- UX and UI – Designing with Color Theory — Onwingspan
- Getting Started with Artificial Intelligence — IBM SkillsBuild / Credly
- Introduction to Artificial Intelligence (MDL-211) — IBM SkillsBuild

ACHIEVEMENTS & RESEARCH

- 3rd Rank in MCA, Finolex Academy of Management & Technology, with 8.86 CGPA (2026).
- Co-author of research work "SkinFusion-Net: Cross-Attention Hybrid Deep Learning for Skin Disease Classification," published in the International Journal of Scientific Research in Science and Technology (IJSRST).
- Represented Mumbai University in Kho-Kho (Zonal Level); selected for Senior State Championship, Ratnagiri District (2023–24).
